Goals

As a Ruby on Rails developer, I hope to work in an environment where my co-workers are excited about the work they are doing, take pride in the code they write, have open communication practices, and celebrate team and individual successes. I would like to find a company that has room for me to advance, and offers mentoring to help me to continue to grow as a programmer.

Selected Projects

New Leaf Massage (individual gSchool project)
code: github.com/ebdrummond/new_leaf
This is an ongoing project I am working on for my sister, a massage therapist. The MVP for my gSchool project was online booking built from scratch, as well as text message appointment reminders.
Used: Twilio, Sidekiq, Javascript, jQuery, PgSearch

Feed Engine (group gSchool project)
code: github.com/ebdrummond/feed_engine
A travel blogging engine that allows users to create trips, invite friends, and have all their tweets, photos, and check-ins integrated during the trip duration. Friends not on the trip can follow along by viewing their travel feed.
Used: APIs for Twitter, Instagram, and Foursquare, Resque, Sorcery

Daughter of Store Engine (group gSchool project)
code: github.com/ebdrummond/daughter_of_store_engine
Working with legacy code from two previous multi-tenant e-commerce apps, this site implements invoice generation and tracking for the platform administrator, and online payments for store owners.
Used: Delayed Job, Kaminari, jQuery

Education

gSchool, Intensive web developer training program, Denver, Colorado
Full-Stack Ruby on Rails Development, graduating July 2013
Michigan State University, East Lansing, Michigan
B.A., Social Relations and Policy
B.A., Anthropology
Study Abroad: Public Affairs in Cambridge, U.K.
            Intensive Japanese in Hikone, Japan

Experience

Manager, Deal Quality and Programming, August – December, 2012
LivingSocial, Washington, DC
- Managed a team of 9 market programmers with a combined quarterly revenue goal of $13.4 million
- Partnered with sales management to plot market strategy and resolve escalations between sales representatives and market programmers
- Served as representative for the Deal Quality and Programming department on new product development and pilot testing and strategic marketing campaigns, and led departmental roll out and training

ERIN DRUMMOND

(continued)

Senior Market Programmer, November 2010 – August 2012
LivingSocial, Washington, DC
- Worked with sales representatives to craft online daily deal promotions that maximize both revenue and customer experience
- Conducted analysis of past deal performance and market trends to determine optimal deal structures, tailored to each individual market
- Provided training, guidance, and mentoring to junior members of the Deal Quality and Programming team and new hires within other business units

National Contracts Scheduler, April 2008 – November 2010
Diversified Reporting Services, Washington, DC
- Led relationship management with the Securities and Exchange Commission (SEC) staff and national subcontractors
- Assisted in managing national reporting contract with the SEC
- Ensured accuracy and quality of transcripts, adhering to specific guidelines of each contract and managing production and distribution of transcripts on a daily basis

Awards

LivingSocial Make Strong Moves Award
First ever Make Strong Moves award, granted for embodying this core company value by looking for original ways to make a big difference
LivingSocial Live Hungry Award
Awarded by acting as an entrepreneur and aggressively moving fast with a new idea
LivingSocial Shark Tank Best New Idea Award
Awarded for introducing the idea of Beer and Bacon Tasting to our live events venue, which sold over 3,700 vouchers and grossed over $70,000 in revenue
